From Baghdad To Africa!

An-Naba Newspaper Issue 283

Thursday 10 Ramadan 1442 AH

"I swear we will demolish the berm and fill the trench and remove the barbed wire and erase the borders from the map, and it will be removed from the hearts and the car bombs will strike the Rafidah from Dayala to Beirut". These were the words of Shaykh al-Mujahid Abu Muhammad al-Adnani, (May Allah accept him), about seven years ago from now, the day Islamic State expanded from Iraq towards Sham, and on that day the Shayatin of mankind and jinn gathered to stop this blessed expansion.

While the Islamic State - its leaders and soldiers - were certain of the promise of Allah ta'ala; Those who disbelieved among the People of the Scripture and the mushrikin in that period could not imagine that this expansion would reach far beyond the nearby borders of Sham, let alone surpassing the borders of the Arab region and even the entire continent, and they all did not expect that the car bombs would strike today from Baghdad to Africa! And not only the Rafidah, but the rest of the kuffar and mushrikin.

The Islamic State has plunged West and Central African states into the flames of war that ignited from Iraq, and the soldiers of the Khilafah are attacking and moving freely in Nigeria, Niger, Chad and Mali... as if they were in Dayala, Karkuk and Salahaddin. The Islamic State's media hardly ceases to publish reports and photos of the massive attacks and the great victories that the Mujahidin have achieved, by the Grace of Allah ta'ala, in the regions of Nigeria, Niger, Chad, Mali, Congo, Mozambique and others. They storm towns and camps, burn headquarters and barracks, engage in fierce battles and ignite raids on all the mushrikin, including armies, police, kafir and murtadd forces, and militias loyal to them.

Just as the soldiers of the Islamic State did not forget - and how can they forget? - they took revenge for the oppressed Muslims from the kafir Christians of Africa, who taste today the might of the Mujahidin after their villages, gatherings and churches in Nigeria, Congo and elsewhere have become a constant target of their attacks, and they are determined, bi'idnillah, to continue their war against the Christians and to increase it further. The Christians in Africa have only tasted some revenge, and

there still remains a lot to revenge! And they have only paid a portion of the bill of a long and heavy account that awaits them for what they have done with our Muslim brothers there.

Yes, the continuous attacks in West and Central Africa has delighted the hearts of the Muwahidin and has enraged and frightened the hearts of the Murtaddin and the Crusaders, and the African continent has became the centre of global attention and the news of Mozambique - for example - has dominated in the news of the Crusader America.

In the midst of the events and their succession, the Mujahidin renewed their attacks on the Rafidah in Baghdad with a new explosion that came despite the continuous security operations to secure the cities and regions of the Baghdad belts, especially after the previous bombing that scattered their body parts in At-Tayaran Square, yet the new bombing occurred again inside the belt! The Mujahidin succeeded in targeting the heart of the enemy, bypassing its fortifications, and mastering the delivery of death tolls to its mushrikin followers.

From the car bomb of Baghdad, which will not be the last, Bi'idnillah, to the continuous operations in the regions of Iraq, Sham and other wilayats, to the attacks of West and Central Africa; The soldiers of the Islamic State continue to escalate their jihad, carrying out their promises, and honoring their oaths by breaking the borders, demolishing the berms, and striking the car bombs. The Crusader America, with its wretched alliance, entered the war against the Mujahidin, thinking that with its power they can isolate them in Iraq or Sham, then be safe in other countries. However, the unity and the strength that the Islamic State achieved by declaring the Khilafah spoiled the Crusaders' plans and foiled their plots. So Iraq, Sham, Africa and other wilayats became one body, so the Islamic State transferred the concept of the unity of Muslims from theories and slogans to practical application on the ground, and created a row (rank) of strong believers like a solid structure.

This structure that the Islamic State established on Taqwa from the first day, on Tawhid and Iman, on al-Wala wa al-Bara (loyalty and disavowal), on complete separation with all the kuffar; It is the secret of its strength and persistence, its expansion and prevalence, and it is the secret of its steadfastness in the face of these global alliances.

By the Grace of Allah ta'ala, it has surpassed all the borders, ethnicities and nationalities that humans have imposed on humans, and disbelieved in all their constitutions and laws, and believed only in the Sharia that Allah imposed on people, and held allegiance to Allah ta'ala, His Messenger and the believers. Therefore, it is no longer strange today to see this harmony and complete peace between the wilayats and the fronts affiliated with the Islamic State, despite the distances and the differences in languages. Their religion is one, their creed is one, and their goal is one; It is the establishment of religion, the abolition of Shirk from the earth, and the worship of people to their Lord, subhanahu. And for this purpose, Allah sent the Prophets as bringers of good tidings and warners.

Allah ta'ala has certainly honored His Mujahidin servants and completed His favor upon them by preserving their jihad and connecting it to the east and west of the earth at a time when the Crusaders thought that they had destroyed it in Iraq and Sham, and although the Crusaders and Murtaddin had previously been involved in the Iraq war, today they have been involved in many wars, the last of which is not in Africa, and today the lions of Africa, by the Grace of Allah ta'ala, have become a difficult number in the field of conflict between truth and falsehood, and they became shaken by the impact of their attacks on armies, tribes and governments.

And this is an invitation to the Muslims everywhere, to contemplate how Allah ta'ala granted victory to that small believing group that started in Iraq? And how He assisted it, supported it, and blessed it until its call reached the ends of the earth, and those who did not speak its language followed it, despite it being exposed to tribulations and earthquakes that the mountains were subjected to. And

the Mujahidin who are living today in the circumstances of the former group of Iraq must know that it is nothing but the established way [of Allah] and trials, then they will reap the fruits of their patience and steadfastness from where they could never imagine and beyond what they ask for, Bi'idnillahi ta'ala.

And to the soldiers of the Khilafah in Africa, we say: May Allah brighten your faces, for you have healed the hearts of the Muwahidin with your actions, your punishment on the armies of kuffar, and your thwarting them on behalf of your Mujahidin brothers. So continue with what you are in and ask Allah ta'ala for steadfastness upon it and give thanks to Him for this great blessing, and remember that your steps today will take place in those distant lands that are far away, Bi'idnillahi ta'ala, and tomorrow we will see it soon.
